

China Paper Industry Report 2013 Is Ready Now!

Under the negative impact of economic environment at home and abroad, mainland China produced 101.10 million metric tons of paper and paperboard in 2013, down -1.37% from 2012. China's paper industry began a transition from growth to maturity, -a period of restructuring, transformation and upgrading, and seeking a new balance in the process.

The 32-page report released by China Paper Association analyzes the paper industry's performance, details industry structure, evaluates market share, presents historical data for the years 2002-2013 and illustrates by figures and graphics such as production-consumption, key industry indicators, pulp production-consumption, imports-exports, consolidation, equity structure, production-sales of top-30 Chinese companies and environmental protection.
