

## ***China Paper Industry Report 2014 Is Ready Now!***

Under the negative impact of economic environment at home and abroad, mainland China produced 104.70 million metric tons of paper and paperboard in 2014. China's paper industry began a transition from growth to maturity, -a period of restructuring, transformation and upgrading, and seeking a new balance in the process.

The 27-page report released by China Paper Association analyzes the paper industry's performance, details industry structure, evaluates market share, presents historical data for the years 2002-2013 and illustrates by figures and graphics such as production-consumption, key industry indicators, pulp production-consumption, imports-exports, consolidation, equity structure, production-sales of top-30 Chinese companies and environmental protection.
